

CaseMark

Black water-fast case marking ink

CaseMark inks are aqueous inks designed for printing on porous media. Delivered in HP 45 inkjet cartridges and bulk containers, CaseMark is very black and well-suited for a variety of printing applications, especially corrugated packaging materials. Available in black.

This ink has excellent decap time ensuring minimal intervention. Some coated substrates may require drying assistance from a heater.

General Performance Data

Property	Range	Comment
Water and smudge-resistance	Excellent	Corrugated cardboard
Dry time	<2 seconds	Corrugated cardboard
Shelf life	12 months	Single use cartridge
Shelf life	6 months	QD cartridge & bulk ink bags
Target substrate	Corrugated

Recommended Cartridge Operating Parameters

Property	Range	Comment
Operating voltage	10 V	
Pulse width	2.3 μ S	
Pulse warming temperature	40°C	
Operating temperature	10° – 40°C	Ensure pulse warming is enabled at cold temp.
Storage temperature	10° – 30°C	

Cartridge Maintenance and Handling

- Clean the printhead by wiping it with a lint-free cloth moistened with alcohol. Wipe slowly and lightly along the long edge, with the printhead facing down.
- Store the cartridge upright with the cap on.

Disclaimer

WE DECLARE OUR LIABILITY TO BE THE PRICE OF THE CARTRIDGE. We are committed to a continuing program of product improvement. Thus, please be advised that specifications, performance, parameters and appearance of our products are subject to change without notice. The information (including performance parameters) provided about this ink is based on tests conducted under controlled conditions. Since conditions of actual use may differ and are beyond our control, use this ink at your own risk and test for suitability in the application. We only guarantee initial start-up of the cartridge prior to the use by date listed on the cartridge packaging.
