

IA251

Fast Dry Aqueous Ink

IA251 is a quick drying aqueous ink well suited for printing on plain or coated media. Available in HP 45 inkjet cartridges and bulk containers, IA251's fast dry time allows printing on coated stock at high speed without an in-line dryer. Its excellent decap time and long shelf life ensure low intervention.

General Specifications

Ink part number	IA251	
Target substrates	Porous	Plain or coated media
Ink vehicle	Water	
Colorant type	Pigment/dye	Hybrid
Drop volume (nominal)	27 pL	Varies with application and temperature
Maximum firing frequency	15 kHz	
Shelf life (single cartridge)	12 months	
Dry time	<2 seconds	
Operating conditions	10-40°C	
Storage conditions	10-30°C	
Voltage	10 V	
Pulse width	2.2 μ sec	
Head warming temperature	N/A	
Decap time	>1 hour	

IA25I

Fast Drying Aqueous Ink

Cartridge Maintenance and Handling

- Clean the cartridge with a lint free cloth and wipe along the length of the printhead.
- If necessary, moisten the cloth first with water or denatured alcohol.

Cartridge Storage

- Remove cartridge from printer and replace clip if cartridge will not be used for 24 hours or more.

Disclaimer

WE DECLARE OUR LIABILITY TO BE THE PRICE OF THE CARTRIDGE. We are committed to a continuing program of product improvement. Thus, please be advised that specifications, performance, parameters and appearance of our products are subject to change without notice. The information (including performance parameters) provided about this ink is based on tests conducted under controlled conditions. Since conditions of actual use may differ and are beyond our control, use this ink at your own risk and test for suitability in the application. We only guarantee initial start-up of the cartridge prior to the use by date listed on the cartridge packaging.
